SEASONS GREETINGS

I am once again very proud to be included in the Black Magic Group. This year we are without one of the founding partners, Roger and Jo Hillestad. The sale will not be the same without them. I wish them well with their final sale and the best of luck in the future. But most of all I wish Jo luck in trying to get Roger to slow down a little.

The group that we have consigned is again a little different in genetics, but still very functional and loaded with performance. The breds are all due to calve early in February and are bred to low birth, high performing bulls. The calves are a group you are going to want to take a look at. Three S A V Net Worth calves that will fit into any purebred herd in the country.

I would also like to take this time to thank Brian and Judy for their hospitality. Especially this year seeing as Brian is busy trying to find a way to beat the Medicine Hat Tigers, I'm sure that he does not have a lot of time, but I'll bet everything will be first class as always.

Look forward to seeing you at the sale.

Dan Pahl

152S is a big, powerful New Day son and is very correct on his feet and legs. The dam goes back to Canadian Big Promise and came from the Riverbend Dispersal. She is definitely a cow that gets noticed by passers through the herd. She is not too big, but carries a lot of capacity and a picture perfect udder. All the heifers and a few cows were bred to this bull and we're really looking forward to his calves.

Mc Bee WMR Super X 745, a popular "outcross and curve bender" sire from the Genex program. His calves made a smash hit at the 2001 Midland Bull Test with his top-selling sons. Super X 745 is out of a powerful Pathfinder cow, a bull with moderate birth weight and high performance.

This is one of the flush calves from Net Worth and 62L. A heifer that came out of this sale a few years ago. She has averaged over \$6000 on her first three calves, which is why we flushed her at such a young age.

She is a Crossfire calf from a Trafalgar cow. Again a little something different but very productive. 123T (Lot 23) is out of a Trafalgar mother as well and Crossfire calves have topped our Amigos Bull Sale for years.
