

23RD ANNUAL

PRODUCTION SALE

Friday,

November 19, 2021

1:00pm at the Pahl Ranch

WELCOME...

2021 Bull Sale Opening Letter

The Pahl family looks forward with great anticipation in hosting our Annual Production Sale on November 19th. With everything that has gone on this year it's tough to sort the positive from the negative, and there always seems to be more negative. I try to always look to the positive with the huge plus being when Agriculture, for the first time in decades, received the well deserved recognition of being essential. I was always under the impression that Agriculture was the only true essential industry, and while other industries may make the world significantly more productive and somewhat more convenient, it is hard to survive without food.

The heat this summer was a bit much to take at times reaching over +40 C on many occasions. We really felt the pain of our farmer neighbours as their crops dried up to basically nothing or at best, just enough to run a combine over. With the hay and forage situation becoming dire for some, this resulted in a sizeable number of cows coming to town this fall. I must say that good quality British breed cattle that slicked off early were affected the least in my opinion as calves still look growthy and strong. My harping on the future beef inventory shortage over the past few years may actually be coming to fruition with the futures board looking quite promising going into the fall calf run. If we can just get something done about our packer industry sticking it to the consumer on the price of beef at the counter, the next few years could be very profitable.

The anticipation leading into this year's sale comes from the tremendous quality and depth of the bull pens, and the consistency of the heifer offering. The bulls have had a tough summer with the heat as well, but came through like champions being those strong healthy Angus and Hereford cattle that I mentioned before. We encourage everyone to feel comfortable and safe visiting us at any time before the sale. We have been so fortunate over the past years to have such great supporters of our program that have grown to become great friends.

Everyone in the Pahl family is eager to help you with selecting the bulls you wish to acquire. The live auction will take place at the Ranch on November 19th and will be live streamed on DLMS. If you have any questions or concerns please do not hesitate to contact us, we are more than happy to help.

Happy Holidays, we look forward to seeing you!
The Pahl Family

PS If you have any questions about the sale offering, please don't hesitate to call Dan at 403-548-1614 or Scott at 403-580-9908.

TERMS & CONDITIONS

TERMS: Terms of the sale are cash or cheque, payable at the sale location. Credit arrangements may be made with individual contributors prior to sale. The right of property shall not pass until after settlement has been made; no invoicing on buyers not in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in case of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

TRANSFER OF OWNERSHIP: Proper instructions must be provided at the conclusion of the sale. Extensions granted on order bids only. Costs incurred due to incorrect transfer will be born by the purchaser. Ownership will not be transferred until full settlement has been made.

GUARANTEE: Each animal becomes the purchaser's risk immediately after the animal is sold. Females have been examined pregnant and considered breeders without any further guarantee.

LIABILITIES: All persons attend the sale at their own risk. The owners, their employees, sales staff and representatives, and facility owner assume no liability legal or otherwise, for any accidents that occur.

HEALTH: All sale cattle are on the Complete Herd Health Program and will be given Ivermectin prior to sale day.

DELIVERY: On Bulls: We will deliver free within a 300 mile radius on single purchases over \$4000.00. If you bring

your own trailer to the sale and pick up cattle we will refund \$100.00 on every purchase up to a maximum of \$300.00. Every assistance will be given in the arranging of shipping and delivery of your purchases. Each animal becomes the risk of the purchaser as soon as sold. All U.S. purchases will be delivered to our closest border crossing unless other arrangements are made with the consignors. **NO DELIVERY ON COMMERCIAL LOTS.**

SEMEN: Pahl Livestock reserves the right to collect semen from any bull sold through the sale. Any semen collected will be at Pahl's expense and buyers convenience. Any semen collected will be for Pahl Livestock use only.

WINTERING PROGRAM: AGAIN THIS YEAR - Bulls will be wintered free of charge until March 15, 2022. Bulls stored after that date will be charged \$2.00 per day. THIS WINTERING FEE MUST BE PAID UPON DELIVERY OR PICKUP. All bulls wintered MUST BE INSURED and WILL BE DELIVERED AFTER MARCH 15, PAHL LIVESTOCK'S CONVENIENCE.

INSURANCE: Cassie Dorran with Stockman's Insurance will be in attendance to insure your purchases.

AGAIN THIS YEAR - Bulls will be semen tested and full insurance is recommended.

Bulls will be semen tested by Bow Valley Vet Services

ERRORS: All announcements at sale time, written or oral, supercede any written material in the catalogue.

LUNCH: Join us for lunch prior to the sale.

Sight Unseen Purchase Plan

We have sold many bulls to people who were unfortunately unable to attend our sale. If for some reason you are unable to attend we would be happy to assist you with your selection and represent you on sale day. Please feel free to call any of the sale representatives to discuss your selections and discuss the offering, preferably a few days before the sale. We will Guarantee your Satisfaction!

Raising Bulls at Pahl Livestock

Bulls here are raised strictly with natural growth and longevity in mind. Lots of bulls are fed in large pens but ours are fed in an approximately 50 acre pen with the feed and the water as far apart as they can be, forcing the bulls to walk miles a day. They are fed a textured grain ration designed for skeletal growth and development, as well as a custom mineral to help with fertility, and free choice dry hay. The whole sale group is fed in two pens letting the better bulls rise to the top. Bulls are then sorted and the bottom is culled after each weigh date and again in September before the sale for temperament. There are no bulls sold from this pen before the sale. These bulls are raised to be sound and guaranteed breeders.

PAHL 125Y
Dam of 103H

Pahl 103H - Our first Mogck Entice son born and I could tell right from there that this sire group was going to be special. His very productive dam is special in her own right being in the donor pen since 2017 and she really knocked it out of the park with this natural calf. 103H needs to be hi-lighted for his pure performance pushing down the scale both at weaning and yearling weighing 895 and 1375 respectively. 125Y had a feature son sell to Living Springs Ranch in 2019 and flush sons selling to Hem Ranch and Pridmore Ranch in 2018.

PAHL 145Z
Dam to 124H

Pahl 124H - The Entice bulls really are an impressive group in terms of how easily they are born and the spread to explosive growth at weaning with 124H sporting a 900lbs weaning weight. 124H has definite herd bull characteristics about him and will definitely be admired on sale day. 145Z is a bullet proof Tiger daughter, super angular a tight little udder and superior reproduction. 124H was born a full month ahead of her 2019 calf. Take a close look at this guy he will be worth your time.

PAHL 210A
Dam to 125H

125H - Check out this power bull with superior performance, reproduction and a pedigree that will satisfy a broad spectrum of breeders. 125H is flat out built right from the ground up with a big square hip, long, sound and a real powerful look. 210A has had previous progeny sell very well with a real power bull selling to Angus Hills Ranch and a tremendous feature bull selling to Triple L Ranch in 2017. She also has 3 beautiful daughters retained in herd.

PAHL 264C
Dam to 127H

127H - This guy needs a big check mark in the catalog with an additional star beside him. Every time I walk into the pen this guys seems to catch my attention and you will love everything about him. He is built right with a super wide top, deep flank and a big butt end. Expect superior performance with this guys calves as well as retaining every daughter. The 264C cow has tremendous reproduction and fertility, calving first cycle every year as well as having 2 sets of twins, one in 2017 and another this spring. She also had a feature son sell to 90 Bar ranch last year.

PAHL 203Z
Dam to 128H

128H - This guy is a real favourite among those who have toured the pens. He is a super long, stout and rugged bull that should catch everyone's eye. 128H offers so much of what is good and what is needed in the Angus breed. He is also a King in the performance category sporting 905lbs weaning weight with a +75 WW EPD and a 1515lbs yearling weight with a +144 YW EPD both top 2% in the pen. I'll just say one thing about 203Z, she is amazing. She is a picture perfect Tiger daughter with a nice resume. She had a tremendous son sell to RP Ranch in 2018 and a real feature power bull sell to East & West Ranching in 2019.

PAHL 102E
Dam to 160H

160H - Here's a different pedigree twist from two Lot 1 high selling bulls. The sire is a carcass giant that was purchased from Prairie Pride Angus in North Dakota who's sire Prairie Pride Next Step is at Krebs Ranch in Nebraska raising some of the most used AI bulls in the US. The maternal sire is a feed conversion giant I bought from Bob and Beau Switzer. The result is 160H who is a bull with tremendous length of spine and extra muscle expression. This is only 102E's second calf with her first going to 7R Ranch is last years sale as a calving ease specialist.

BRUNS BLASTER SIRE

162H - The Blaster progeny are stamped with tremendous eye appeal, muscle shape and breed character. 162H is no exception, sharing the highest weaning weight in the pen at 920lbs and is packed with superior performance as well. He stands square on all four corners, he is wide topped and has deceiving length of body which is masked by his depth of rib. 162H is a flushmate to 143H coming from the cornerstone female Limestone 354X, who if you can find a hole in her I challenge you to find it.

PAHL 158E
Dam to 164H

164H - I love this bull in the way that he carries himself, he always seems to grab my attention when walking through the pen. Another son of the Next Step sired bull from North Dakota, he has extra muscle with tremendous thickness and a nice foot. The young Flora cow is showing some real promise with her first calf, a full brother, being a sale feature and selling to M & R Farms in last years sale. She is a moderate framed, angular female with a tight little udder and superior feet.

HOW MUCH CAN YOU AFFORD TO PAY FOR A TOP BULL?

COWMAN FORMULA

Increase in pounds per calf from a top-performance bull
 X No. of cows bred to him per year
 X No. of years to keep the bull
 X Expected selling price of calves
 = Additional dollars you can pay for a better bull

Example: A bull who will add 30 lbs. to the weaning weight of each of his calves mated to 25 cows per year for 4 years and you sell the calves for \$1.80 per pound.

$$30 \times 25 = 750 \times 4 = 3000 \times 1.80 = \$5,400$$

This is worth \$5,400 more than the average bull who will keep your weaning weights the same. Take this formula and put our own figures in and see what you can afford to pay. This equation does not consider the increase in value due to calving-ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

KR LADY MAY 4382
Dam to 179H

179H - 179H is sired by the carcass king and one of the most popular bulls in North America Payweight 1682. He is a stout rascal with good performance and backed by an impressive EPD profile. He is a calving ease specialist with an amazing birth to yearling spread and backed by a tremendous female. The KR Lady May cow was the high selling cow in the Krebs dispersal reaching an appraisal of \$50000. She was in the Krebs donor pen when purchased by Jim Henderson and now continues to be flushed by all different genetic profiles and hitting it out of the park with top quality cattle every time.

PAHL 226C
Dam to 194H

194H - Original has been a superb breeding bull for us over the last number of years and continues to raise sale features that will add tremendous value for their new owners. 194H is going to provide you with added performance and has a real nice added set of EPD's to back him up. The Erica 226C cow is a tremendous female with super thickness and spring of rib. She raised a full brother going to the Pruttis Ranch in Montana in last years sale. She also has raised 2 daughters that have been retained in herd.

PRAIRIE PRIDE ORIGINAL
Sire to 221H

221H - An Original herd bull who will have the ability to hit it straight down the middle of the fairway with remarkable consistency. Another bull with superior birth to yearling spread carrying basically a 0 BW with a +124 YW EPD. The Original sons really stand out and they all carry the same stamp. The Blossom 34'16 female was one of my selections from the Riverbend Dispersal. She is a moderate framed cow with a super tight little udder who has become a consistent producer of tremendous females. Her first two calves were females that have been retained in herd.

PAHL 257Z
Dam to 227H

227H - 227H is just one more powerful Original son. Describing these feature bulls at the start was exciting because there was so much to say but its getting a bit repetitive because the group is so good. I'm hoping that's not a bad thing though. He has real length of spine and real natural thickness. 227H is a real attention getter as well, he is proud and square and moves on a big angular foot. The 257Z female is a super productive and fertile cow with a real front pasture look about her. She has calved first cycle every year while raising four tremendous daughters in herd and a superior son going to East & West Ranching in 2016.

Hereford Long Yearlings

This is the top 19 bulls out of the group that started with 30. None are being kept and none have been sold. They have been vigorously culled for feet, testicles, temperament, structure and performance over the past 18 months. We are very proud of the group we have assembled and know that you will be able to buy with the utmost of confidence.

PAHL 49D
Dam of 3H

Hollywood is a definite sale feature. He has tremendous length and depth as well as being marked real well. A long line of great females stacked up in this pedigree!

High Test is a real meat machine with tremendous length and depth. He will definitely have the scale pushed down on sale day. Ranked 3rd at weaning and 7th as a yearling.

GMC is a son we used out of a top heifer purchased at the Little Red Deer Herd Dispersal. Build right with solid performance numbers and a real low birth weight, 76lbs actual. GMC calved so well and the calves look so good we used him again.

9G

NOTES

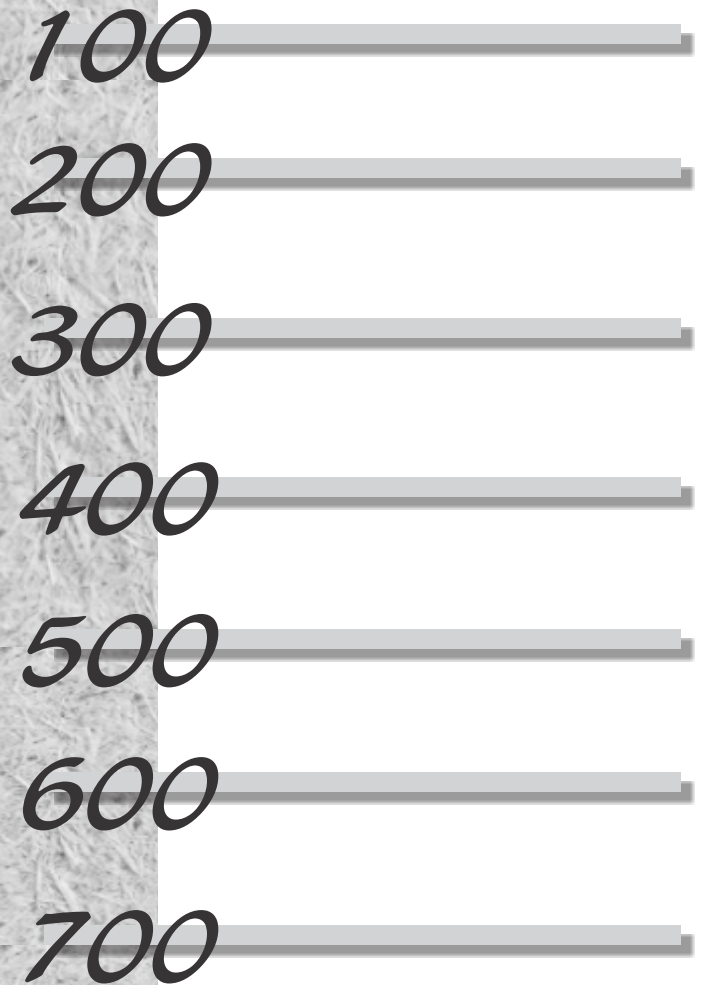

COMMERCIAL HEIFERS

First and second cross Angus/Hereford heifers. We don't keep any of these so they are our best. All replacement heifers receive 3 shots Bovi Shield 1 shot Plus Enforce from birth to breeding as well as Ivomeced. Bred July 4 - July 26 (one cycle) to easy calving Black Angus bulls. Preg. checked safe in calf.
